Kittanning, PA 16201

ADJUSTABLE RATE MORTGAGE ("ARM") IMPORTANT MORTGAGE LOAN INFORMATION -- PLEASE READ CAREFULLY PROGRAM NAME: 10-YEAR ADJUSTABLE RATE MORTGAGE

If you wish to apply for an Adjustable Rate Mortgage loan (referred to in this disclosure as an "ARM") with Farmers & Merchants Bank of Western Pennsylvania, N.A. (referred to in this disclosure as "we," "us," "our" or "Lender"), you should read the information below concerning the differences between this ARM program and other mortgage loan programs with which you may be familiar. This disclosure describes the features of the specific ARM that you are considering. Upon your request, we will provide you with information about any other Adjustable Rate Mortgage programs we offer.

GENERAL DESCRIPTION OF AN ADJUSTABLE RATE MORTGAGE LOAN. This loan is an Adjustable Rate Mortgage loan. The applicable interest rate may change from time to time based upon the movements of an interest rate index. This ARM program is based on the terms and conditions set forth in this disclosure and in the loan documents. We have based this disclosure on recent interest rates, index and margin values, and fees. Ask us for our current interest rate and margin.

You should read carefully this disclosure and the promissory note, deed of trust or mortgage, any riders and all other documents that you will be asked to sign if we offer an ARM to you and you accept it. This disclosure is not a contract or a loan commitment. However, the loan documents once signed will be a contract between you and us. The matters discussed in this disclosure are subject to change by us at any time without notice.

HOW YOUR INTEREST RATE IS DETERMINED. Your interest rate will be determined by means of an index that may change from time to time.

The Index. The interest rate charged under this ARM program will be based on an interest rate index (referred to in this disclosure as the "Index"). The Index is the the weekly average yield on U.S. Treasury Securities adjusted to a constant maturity of ten (10) years. Information about this Index is available in the Federal Reserve Statistical Release H.15 (519). If the Index is no longer available, we will choose a new index that is based upon comparable information.

Interest Rate. The interest rate is based on the Index value, rounded up to the nearest 0.125%, plus a margin. A change in the Index generally will result in a change in the interest rate. The amount that your interest rate may change also may be affected by periodic interest rate change limitations and any minimum or maximum interest rate limits, as discussed below.

Interest Rate Adjustments. Your interest rate under this ARM program can change every 10 years. Your interest rate cannot increase or decrease more than 2.000 percentage points at each adjustment. However, under no circumstances will your interest rate increase more than 6.000 percentage points or go below 5.000% per annum at any time during the term of your loan.

Initial Interest Rate Discount. Your initial interest rate will be discounted and will not be based on the Index used to make later adjustments. You should note, however, that because your initial interest rate will be discounted, your interest rate may increase on the first Change Date even if the Index remains the same or decreases. Ask us for the current interest rate discount under this ARM program.

HOW YOUR PAYMENTS ARE DETERMINED. Your monthly payment of principal and interest will be determined based on the interest rate, loan term, and loan balance. If your interest rate changes, your payment will be adjusted to fully amortize the loan by the end of the loan term.

Frequency of Payment Changes. Based on increases or decreases in the Index, payment amounts under this ARM program can change every 10 years.

Payment Example. Your payment may increase or decrease substantially depending on changes in the interest rate. For example, on a \$10,000, 30-year loan with an initial interest rate of 6.500% (the initial interest rate in effect September 2008, which is not based on the index in effect for September 2008), the maximum amount that the interest rate can rise under this program is 4.000 percentage points to 10.500%, and the monthly payment can rise from an initial payment of \$63.23 to a maximum of \$80.09 in the twenty-first year.

Note: To see what your payments would be, divide your mortgage amount by \$10,000; then multiply the monthly payment by that amount. (For example, the monthly payment for a mortgage amount of \$60,000 would be: \$60,000 divided by \$10,000 = 6; 6 X \$63.23 = \$379.38 monthly.)

Adjustment Notice. You will be notified at least annually if interest rate changes occur. When an interest rate change will also involve a change in your monthly payment, you will be notified in writing (at least 25 calendar days, but not more than 120 calendar days) before the payment at the new level is due. The notice will indicate the adjusted payment amount, interest rate, Index value, and the outstanding loan balance at that time.
